SUPER EMA + SMART MONEY CONCEPTS

MARKET-DEKHO.COM

One mentorship, all three markets

Every track runs on the same Super EMA + Smart Money Concepts framework, live sessions, and direct feedback — not pre-recorded videos you forget in a week.

01

Exclusive Indicator

Gain an edge with our powerful & exclusive trading indicator — the Super EMA — built in-house and given to every enrolled student.

02

Trading Community

Join our active community and trade alongside other traders in real time, across WhatsApp, Telegram and Discord.

03

Advanced Screener

Use our advanced screener to find the best opportunities across markets, built specifically for the strategies taught in the mentorship.

04

Valuable Stock & Trade Picks

Get high-potential stock picks and trading opportunities directly from the desk as they set up.

05

Learn Trading Properly

Step-by-step learning from experienced traders — from knowledge to freedom, with live trade reviews and weekly Q&A.

What "Super EMA + Smart Money Concepts" means

Every track — Equity, Crypto, and Forex — is taught through the same lens: Super EMA for trend confirmation, Order Blocks for spotting institutional footprints, Liquidity Sweeps for stop-hunt zones, and CHoCH & BOS for confirming real trend shifts. One framework, applied to whichever market you choose.

TRACK 01
EQUITY MARKETS

Equity Mentorship

Indian equities — structure, sectors, and setups, taught live.

→ Market structure & trend reading with Super EMA

→ Order Blocks — spotting institutional footprints

→ Liquidity Sweeps & stop-hunt zones

→ CHoCH & BOS — confirming real trend shifts

→ Sector rotation & stock selection

→ Reading fundamentals before you trade the chart

→ Risk management & position sizing

→ Live trade reviews & weekly Q&A

Why traders choose to learn here

Market Dekho wasn't built to be another finance page posting green candles. It was built by a trader who wanted mentorship that actually holds up — credentialed, methodical, and built for people who intend to stick with the markets.

01 Credentialed, not just content

Market Dekho is founded by a NISM XV (Research Analyst) certified analyst, with an MBA from IBS Hyderabad and hands-on experience in equity research and portfolio management at Kotak Securities and Agile Capital. This isn't borrowed knowledge repackaged into a course — it's mentorship from someone who has sat on both sides of the desk.

02 One methodology, three markets

The Super EMA + Smart Money Concepts framework was built in-house and is taught the same way across Equity, Crypto, and Forex. Learn the lens once — Order Blocks, Liquidity Sweeps, CHoCH & BOS — and you can read any market you choose to trade.

03 A community that trades together

Enrollment isn't the finish line — it's where the real learning starts. Active WhatsApp, Telegram, and Discord communities keep the mentorship going between live sessions, so questions get answered and setups get discussed with people actually working through the same charts as you.

Market samjho, Fark dikhega.

"Once you truly understand the market, the difference will show." That's the belief Market Dekho is built on — education should change how you trade, not just sit half-finished in a course library. If you're ready to stop guessing and start learning properly, this is where you begin.
